SKILLS

- DSA (java)
- Problem Solving
- HTML, CSS , JavaScript
- Creative Thinking
- SQL (Basic Queries)
- Visual Designs

LANGUAGES

- English
- Hindi

REFERENCE

PROFILE

B.E. student in Computer Science & Engineering with a strong foundation in Java, data structures, and web technologies. Eager to apply my skills in a real-world environment and contribute to impactful projects through my first professional experience.

PROJECTS

DSA - Java
- Shopping Cart System
- Task Schedular
- Password Manager
- Quiz App

I gained hands-on experience with core Java concepts such as priority queues, HashMaps with multiple classes, and the practical use of access modifiers for encapsulation and structure. Shifted from just solving problems to building real-use tools.

Web Designs
- News Website
- Todo List App
- Weather App

Implemented local storage to persist user data in the browser, ensuring that tasks remain saved even after refreshing the page, and added dynamic functionality for adding and removing tasks.

Thumbnail Designs

While designing thumbnails, I learned the importance of positioning, working with strokes and shadows, applying proper padding and spacing, and developed an eye for clean, minimal design using tools like PixelLab.

EDUCATION

MUMBAI UNIVERSITY

Bachelor of Engineering (B.E.) in Computer Science & Engineering (cyber security)

THKAUR COLLEGE OF ENGINEERING & TECHNOLOGY

2024 - 2028
